Profile

Specializing in full-stack web application development, with a foundation in Python-backed machine learning and trading bot creation. Transitioning into front-end development, enriching a holistic approach to web applications. Drawn towards blockchain, notably NFTs for artists' independent distribution, with a well-engrained practice in AI.

Having a 12-year Music and Entertainment industry background, bringing a unique creative perspective to technical collaborations. Seeking a forward-thinking team dedicated to crafting meaningful, innovative solutions.

Education

2007 - 2010
Programming Faculty at the University of Information Technology and Management (TOP Programmers Program) in Rzeszów, Poland

2020 - 2021
Blockchain Course at the Ivan on Tech Academy

Work Experience

March 2022 - June 2022
Chatbot development at „Bielański Integrator Przedsiębiorczych" in Warsaw, Poland

April 2023 - present
Full-stack online store development in „Dobry Bartnik", remote
